## Tvs Rp 3160 Star Printer Drivers Download

SoftVue's site Printer Drivers and Software for your PC, Laptops, Printers & Networking Devices. Find Laptop Drivers, Printer Drivers, Software and Downloads for Windows and Mac.1. Field of the Invention The present invention relates to an optical package containing a light emitting diode. 2. Description of the Related Art As the display size and image quality of a display device increase, the display size of an optical module used in the display device also increases. Accordingly, a method of increasing the density of the optical module, in order to increase productivity, becomes more important. The optical module is formed of a package for containing an optical device, such as a light emitting diode, and a printed circuit board on which the package is mounted. For example, a display device often uses a flexible printed circuit board as the printed circuit board. The flexible printed circuit board is bent along a predetermined bent shape, such as a bent shape of a curved surface or a tubular shape of a metal pipe, when the flexible printed circuit board is mounted on a surface, such as a wall surface or a back surface, of the display device. However, when the flexible printed circuit board is bent along the bent shape, the flexible printed circuit board may be damaged. Especially, if stress is applied to the flexible printed circuit board along the bent shape, the flexible printed circuit board may be easily damaged. Furthermore, in order to improve the productivity, the optical package, i.e., a package for containing the light emitting diode, is preferably small in size. On the other hand, if the optical package is too small in size, a space for disposing the light emitting diode may be limited. As a result, the light emitting diode may have a limitation of light output. When a space for disposing the light emitting diode is limited, the size of the light emitting diode may be limited. Therefore, the light emitting diode may be difficult to be formed in a rectangular shape or a trapezoidal shape, and may be restricted to be formed in a predetermined trapezoidal shape.

Cameroon: March protests forced president out Eighteen people have been arrested in the aftermath of months of anti-government protests in Cameroon that led President Paul Biya to step down last month. Two anti-government protesters have been killed in clashes with riot police in the north of the country. AFP news agency quotes witnesses as c6a93da74d
